2 - NUMBERING
Each transmitter is manufactured and sold with a different factory-set serial number.

3 - PROGRAMMING
The transmitter must be programmed into your system memory. Your own installer or reseller will provide you the necessary instructions for your system.

4 - OPERATION
A - Firmly depress the button until the small red LED illuminates.
B - After the LED has illuminated, release the button.
If the device you are attempting to activate does not respond, repeat steps A and B or consult section 6 (Troubleshooting) of this manual.

5 - BATTERY ACCESS
To access the battery open the case with a screwdriver acting on the slot between the cover and the bottom and remove the bottom, as shown in fig. 3a and 3b. Slide out the old batteries and replace them with the new ones [CR2016] respecting the polarity, with the positive (+) side upward.
NOTE: Please dispose of the batteries properly according to local laws and regulations.
Test proper battery installation by verifying that the red LED illuminates when the button is pushed.
